Version 1.0

Brand foundation

THE IDEA

Straw Hat Devs combines curiosity, practical engineering and an approachable teaching style. The hat signals exploration; the code mark makes the technical focus immediate.

BRAND CHARACTER

- Curious, not complicated
- Credible, not corporate
- Energetic, not noisy
- Practical, not theoretical

Name

Straw Hat Devs

Descriptor

Software Engineering / Cloud / AI

Suggested voice

Clear, practical and confident. Explain complex engineering ideas in plain language, then show how to apply them.

Production rules

- Use the 3D primary logo for digital brand moments and video.
- Use monochrome files for engraving, stamps and one-color printing.
- Use the flat logo for small sizes, merchandise and low-detail output.
- On photography, place the logo inside a navy field or add sufficient contrast.

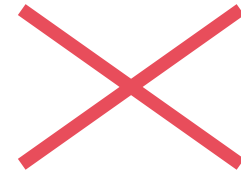

Incorrect logo usage

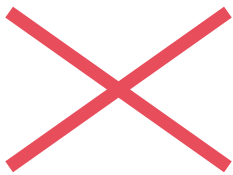

Do not stretch, squash or change the angle.

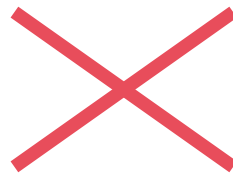

Do not recolor individual elements outside the palette.

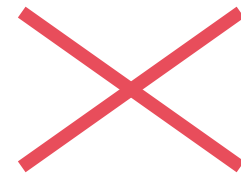

Do not remove the code symbol from the primary icon.

Do not add outlines, glows or shadows beyond approved artwork.

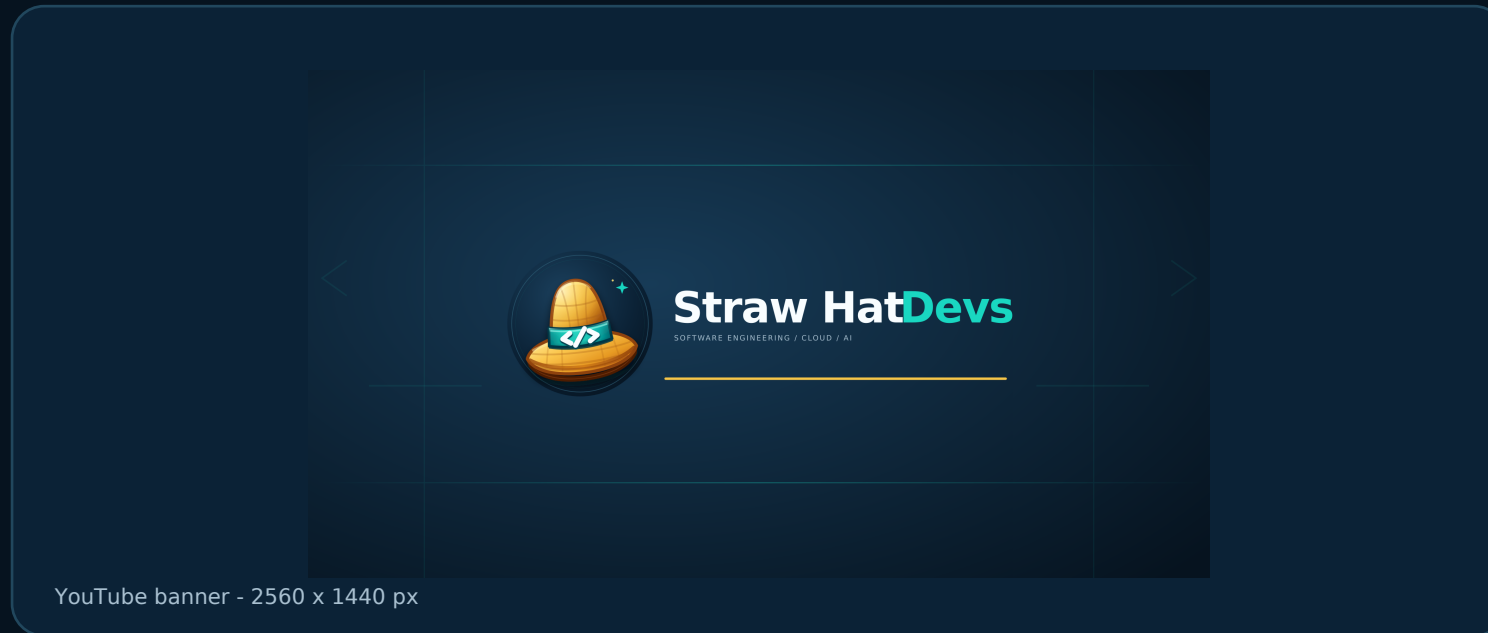

Do not place the detailed mark below its minimum size.

Do not place the logo on a low-contrast or visually busy area.

YouTube and social system

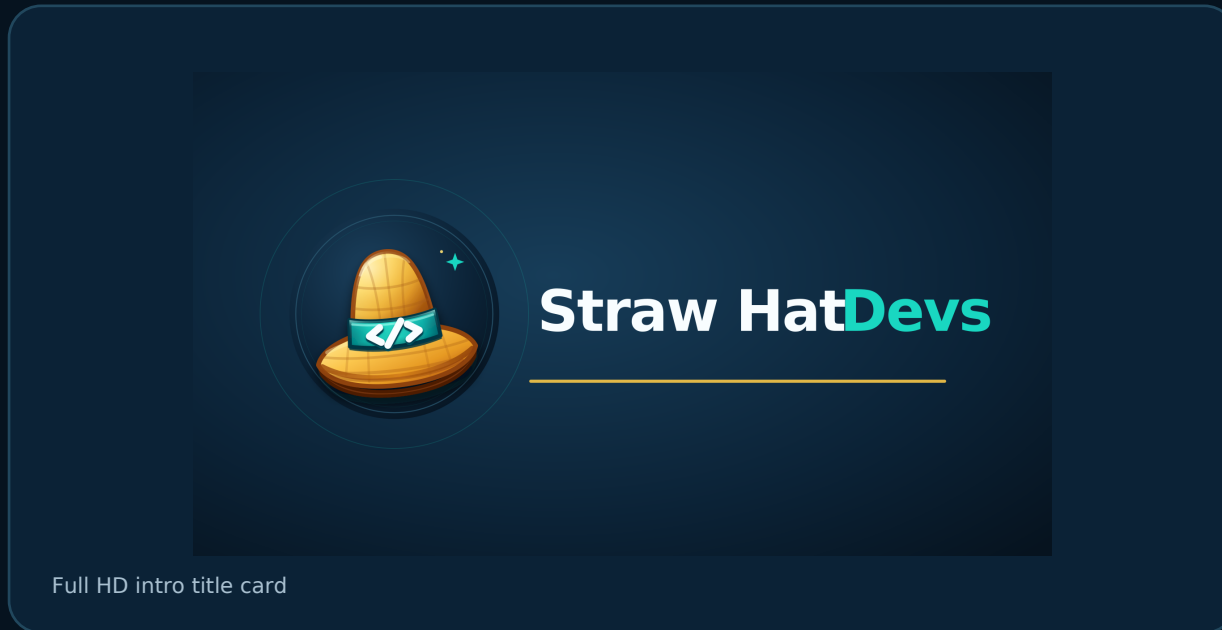

Safe-area guidance

Keep the icon, channel name and descriptor inside YouTube's central 1546 x 423 px safe area. The supplied banner already follows this rule.

Thumbnail cue

Use navy as the base, gold for emphasis and teal for actions or technical highlights. Keep the logo small; the video topic should remain dominant.

Motion and intro behavior

Motion rules

- Keep the complete intro at 4 seconds or less.
- Preserve the approved 7-degree hat angle.
- Use smooth ease-out movement; avoid spins and bounces.
- Use a soft dissolve or opacity fade into the first scene.
